October 14, 2013

Office of the Secretary  
Federal Communications Commission  
445 12<sup>th</sup> Street, S.W.  
Washington, D.C. 20554

RE: **WC Docket No. 10-90**  
**FCC Form 481 Filing pursuant to Sections 54.313 and 54.422**

With this letter Premier Wireless (359114) files it's FCC Form 481, which is due to the Commission on or before October 15, 2013.

Please call me at 712-722-3451 if you have any questions concerning this filing.

Sincerely,

A handwritten signature in blue ink, appearing to read 'R.A. Boone', is positioned above the printed name.

Ryan A. Boone  
Regulatory Manager  
Premier Wireless

<110>	Has your company received its ETC certification from the FCC?	(yes / no ) <input type="radio"/> <input checked="" type="radio"/>
	If your answer to Line <110> is yes, do you have an existing §54.202(a) "5	
<111>	year plan" filed with the FCC?	(yes / no ) <input type="radio"/> <input type="radio"/>

If your answer to Line <111> is yes, then you are required to file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

- <112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

---

 Name of Attached Document (.pdf)

Please check these boxes below to confirm that the attached PDF, on line 112, contains a progress report on its five-year service quality improvement plan pursuant to § 54.202(a). The information shall be submitted at the wire center level or census block as appropriate.

- <113> Maps detailing progress towards meeting plan targets
- <114> Report how much universal service (USF) support was received
- <115> How (USF) was used to improve service quality
- <116> How (USF) was used to improve service coverage
- <117> How (USF) was used to improve service capacity
- <118> Provide an explanation of network improvement targets not met in the prior calendar year.

Line 510 – Description of Compliance with Service Quality Standards and Consumer Protection Rules:

Premier Wireless, LLC (“Premier”) certifies that it has complied and will continue to comply with applicable state and FCC service quality and consumer protection standards. Specifically, Premier certifies on an annual basis with the Iowa Utilities Board that it is complying with applicable service quality standards and consumer protection rules, on top of reporting local usage, answer time, retail locations, unfilled requests for service, complaints, and outages on its annual quality of service report. Premier also monitors and reports similar service quality metrics in accordance with IAC §199-22.6. In addition, Premier has implemented multiple consumer protection measures to protect the consumer against fraud and to protect customer information from improper use and disclosure. These measures include implementing both a Customer Proprietary Network Information policy that complies with FCC rules and regulations and a Red Flag policy that complies with FTC rules and regulations. Both policies require training for all employees which includes authenticating customers, identifying/protecting customer proprietary information, detecting & preventing identity theft, and reviewing Premier’s disciplinary process. Premier has also appointed a Compliance Officer to oversee both policies and respond to any employee questions. Finally, Premier restricts access to customer information to only those employees who need access to perform their job functions.

#### Line 610 – Description of Functionality in Emergency Situations:

Premier Wireless, LLC (“Premier”) certifies that it has followed and continues to follow industry best practices that are designed to allow Premier to remain functional in emergency situations. These best practices include maintaining back-up power, utilizing redundancy within our network, and managing traffic capacity.

##### Back-Up Power:

Premier maintains an 8 hour minimum battery back up at all central office and remote office locations. In addition to battery backup, each location has a permanent natural gas or propane generator which is designed to automatically turn on in the event of a power failure. Premier also maintains a 6 hour minimum battery back up at all field terminal locations. In the event of a sustained power outage, Premier has approximately 20 gas-powered, portable generators to power its field terminal locations and additional portable generators for cell-site locations. Finally, our ONT’s are equipped with 8 hour battery backup. Premier also takes proactive measures by conducting monthly testing on generators and performing real-time monitoring of commercial power & generator activity within all levels in its network.

##### Network Redundancy:

Premier has utilized industry best practices to build redundancy into every facet of its network. Specifically, every central office and remote office location has redundant fiber routes into its premise. Premier utilizes both a fully-redundant regional second-mile and state-wide middle-mile fiber transport ring with all traffic (voice & broadband) able to terminate to multiple locations within the state. Premier also maintains redundancy in equipment that is designed to automatically “fail-over” in the event one piece of equipment fails, in addition to keeping spares on hand.

##### Managing Traffic Capacity:

Premier’s network is engineered to provide maximum capacity in order to handle excess traffic in the event of traffic spikes resulting from emergency situations. This includes maintaining network capacity that is typically not fully utilized under normal circumstances and employing industry best practices to manage traffic flow and capacity in times of unusual network use, such as emergency situations.
